

TELECOMMUNICATIONS DIVISION

AGENCY TELECOMMUNICATIONS REPRESENTATIVE

BULLETIN 05-01

DATE: April 13, 2005

SUBJECT: LOWER LONG DISTANCE RATES WITH 700+ DIALING

ACTION:

The Chief Agency Telecommunication Representative (CATR) at agency/department headquarters should provide this information to all agency/department staff that make long distance calls (only if **dedicated** access is not available as explained below).

BENEFITS:

- The 700+ Dialing Plan reduces the per minute costs for long distance calling charges by approximately 40 percent (\$0.0233 instead of \$0.0410) when using **Option 3** below.
- Increases the dialing options for State California Integrated Information Network (CALNET) customers with **switched** access (see * on page 2 below).

KEY POINTS:

- Long distance service is available to CALNET subscribers through MCI's Voice Network (Vnet). The following price table from the CALNET contract shows four dialing options; until now, only three of them were available for use. MCI redesigned the Vnet network to enable the "**Switched to Dedicated**" option.

Long Distance

<u>Dialing Options:</u>	<u>Rate:</u>	<u>700 Dialing Plan Impact:</u>
1. Dedicated to Dedicated**	\$0.0233 per minute	No Change
2. Dedicated to Switched	\$0.0233 per minute	No Change
3. Switched to Dedicated	\$0.0233 per minute	Eligible callers may now use this plan/rate.
4. Switched to Switched	\$0.0410 per minute	No Change

- Effective immediately, CALNET MSA customers with **switched** access may dial 1+ 700 + seven digit CALNET number to receive the lower **switched** to **dedicated** CALNET rates for **intrastate** long distance calls.
- The **requirements** to obtain this new long distance rate are as follows:
 1. Caller obtains long distance telephone services through the CALNET MSA
 2. Caller only has **switched** access (no assigned CALNET prefix)
 3. Caller dials a 1+700+seven digit CALNET number

ATR BULLETIN 05-01

Lower Your Long Distance Rates with 700+ Dialing

- The **switched** to **dedicated** rate applies only to calls made to offices served by [DGS consolidated Centrex systems](#) (see the State Telephone Directory (printed or on-line) for the CALNET numbers), or the attached [cross-referenced list](#) of public-**switched** long distance telephone numbers to CALNET **dedicated** telephone numbers).
- For assistance in using the 700 dialing plan when there is a problem, contact the California Major Account Center at 1-800-303-0103 and select number "2", (repair). Then select number "1" (to report a problem or check the status of open trouble tickets).
- The California On-Line Directory lists both CALNET and public telephone numbers for State agencies. To find CALNET numbers or other listings, see <http://www.cold.ca.gov/>, select the white or yellow pages and look up the desired person or agency.

BACKGROUND:

Under CALNET MSA services, MCI processes long distance telephone calls via Vnet to connect calls between locations within the State (**intrastate**), as well as calls to almost anywhere in the world. The 700+ Access dialing plan was created to provide CALNET customers that have only **switched** access capability, with a method to call CALNET numbers at the lowest CALNET **intrastate** rate available.

To view previous ATR bulletins, refer to the DGS Telecommunications website at <http://sequoispacific.dts.ca.gov/> (click on Network Publications on the right side of the page, then scroll down to the ATR bulletins).

For questions regarding this bulletin or other telecommunications issues, please call the DGS-TD Resource Communications Center at (916) 657-9903 (CALNET 8-437-9903), and ask to speak to a Customer Account Manager.

BARRY R. HEMPHILL
Deputy Director for Telecommunications
